

Luxaflex® Panels – 250mm

Elegant simplicity for larger windows

Give your room a smart, streamlined finish with the newly expanded Luxaflex® Vertical Blind collection. Stylish and practical, Luxaflex® Panels combine the functionality of vertical blinds with the sleek look of panel blinds. Exclusive to Luxaflex®, the new 250 mm wide vanes offer a bolder, more architectural look.

A new interpretation with an eye for detail, 250 mm Panels come in an exclusive range of designer fabrics that are finished with your choice of tasteful aluminium or wood details. The sleek aluminium track with coordinating aluminium toggle adds yet more individuality to this fresh, contemporary style.

The 250 mm Luxaflex® Panels are ideally suited to larger French windows and sliding doors.

Luxaflex® Vertical Blinds

Broaden your horizons

With 230 fabrics newly introduced, Luxaflex® innovative and extensive Vertical Blind collection now includes over 480 modern and stylish designs, from faux suede and PVC to embossed aluminium – all available in a variety of shades, vane widths and fabric treatments including dirt and moisture repellent Topar®, protective Dustblock™ and antibacterial Sanaplus™.

The Pure & Natural collection is all about fabrics!

It gives you the best of both worlds by combining the natural beauty of textiles with the practical benefits of a vertical blind – elevating this window covering to the level of a fashion statement. Luxaflex® offers you more distinctive textures and designs than ever before, including plush velvets, luxurious linens, unique woven

woods and an exclusive range of retro, geometric and floral designs.

From gently translucent to closely woven materials, these new fabrics cover even the broadest expanses of floor-to-ceiling windows with easy grace.

Multiperfora PVC

Play with light and shade with the PVC collection's stylish new cut-out vane design and 0.75%, 3%, 6% and 12 % perforation options; multiple perforations in once vane or blind allow you to choose how much or how little light you let in. Antibacterial vanes make the PVC collection ideally suited to catering and medical installations.

Aluminium

For coolly urban windows, the aluminium collection now includes an exciting polychrome metallic finish, as well as an extended range of colours and silvers.
